

Invalid Location Program

During an emergency, especially a fire, there is very little time to hesitate. Imagine that you or a loved one is either temporarily or permanently disabled. Could you get yourself or them out safely?

The Fort Lee Fire Department has an "Invalid Location Program" that allows us to know exactly where these people are in any type of building and what type of disability they may have. The department maintains a running list in our computer system of those who live and work within the Borough of Fort Lee who may need our assistance in evacuating the building. THIS INFORMATION IS STRICTLY CONFIDENTIAL. The registration form below is in PDF form. Click on link below, print out form and mail it to: Fort Lee Fire Department, 309 Main Street, Fort Lee, NJ 07024 ATTN: Invalid Registration.

Tot Finders Program

During an emergency, especially a fire, there is very little time to hesitate. Children and the elderly are at the greatest risk, especially at night when they are sleeping. They will become easily confused and frightened causing them to hide or they may be too young to escape on their own.

The Fort Lee Fire Department has started a "Tot Finders Program" that allows us to know exactly where they sleep in your home. The department maintains a running list in our computer system of all those who are registered in the program so that in the event of fire we will know exactly where they are if they have not evacuated the building. THIS INFORMATION IS STRICTLY CONFIDENTIAL. The registration form below is in PDF form. Click on link below, print out form and mail it to: Fort Lee Fire Department, 309 Main Street, Fort Lee, NJ 07024 ATTN: Tot Finders Registration.
